Highlights from Oct. 5 Explore More! Bird Walk – Colorado Corvid Chase! – Evergreen Audubon

1 minute

We enjoyed finding 8 of the 10 Corvids that dwell in Colorado yesterday PLUS 31 additional species of birds! Found Clark's Nutcracker, Gray Jay, and Steller's Jay near Echo Lake and added Barrow's Goldeneye and a Golden-crowned Kinglet to our list while there.

Next stop was Evergreen where we saw **Common Ravens**, **American Crows**, and **Black-billed Magpies**. A stop at Red Rocks netted a **Woodhouse's Scrub Jay** and two BONUS birds, **Prairie Falcon** and **Peregrine Falcon**. Our last stop was Prospect Park where we found our 8th Corvid, the **Blue Jay**. Plus, we were treated to stunning fall foliage all day.
