Open House at New Education Center – Evergreen Audubon

2-3 minutes

Come and check out our new location and learn about all the programs and events we are planning for the coming months! We are hosting an open house on Saturday, January 28th from 11am to 2pm at the Education Center located at [29997 Buffalo Park Road](#). Our classrooms will be open and volunteers will be conducting fun activities for all ages. We'll also be hosting some guided nature walks on the trails at Alderfer Three Sisters Open Space.

If you are a teacher in public or private school, preschool, or homeschool you can get all the details about the environmental education programs we are now offering for your students in preK through high school. If you are a scout leader or have a child in girl or boy scouts, bring your kids along and get information about opportunities for your troops. We offer programs that were

developed to specifically support a variety of nature related patches and badges scouts can earn. If you've got a young naturalist in your family, we are now providing nature themed birthday parties held at the Education Center or the Nature Center on Lake Evergreen.

In addition to group programs, we are offering a variety of activities for children and adults. Every Tuesday Starting January 31st, children in grade 1-6 can participate in our after-school program at the Education Center. We'll have registration forms available online and at the open house. This summer we will be providing summer day camp experiences for children from 5 to 10 years old. Of course we also offer a spectrum of programs for adults throughout the year such as monthly guided bird walks. All the details about scheduling these programs will be available at the open house.

We are so excited about the programs we are going to be offering from our new location and want to share them with you so join us on the 28th to get a tour of the education center, walk the trails with a naturalist, and chat with our staff and volunteers about what we have to offer.
