May 6, 2018

We had great member participation in last year's Bear Creek Watershed Birding Challenge, so we are continuing the challenge in 2018. We will follow the thresholds set last year for the four geographic regions: Bear Creek Watershed (106 species), Jefferson County (129), Clear Creek County (71), and Colorado (167). As 2018 is the "Year of the Bird", we also ask you to keep a tally of all bird species you see anywhere in the world in 2018. Note that these lists are not mutually exclusive and you can keep as many of the lists as you would like. As last year, the challenge will run throughout the calendar year from January 1 to December 31, 2018. We hope you will take on some new areas for 2018! We will celebrate your accomplishments at the 2019 banquet. Checklists for all these areas (except the world!) are posted at <https://evergreenaudubon.org/nature-conservation/local-birding/>.
