Our biggest money-makers at the Bash are always experiences. What talent or experience can you donate to this year's Bash? In the past we've had birding trips, dutch-oven dinners, star-gazing soirées, botanical garden behind-the-scenes tours, USGS earth-quake center tours and even six months of soups. Use your imagination, do have a skill you can teach or an experience to share that folks would bid on? Do you have friend with talent that you can tap into. We need your help to make the Bash another success.

Please contact Ann Dodson at:

We would like your ideas by July 15th.
