We are gearing up for opening the Evergreen Nature Center for its 11th year of operation and could use your help with a wide variety of projects. The nature center has been so successful because of the dedication and hard work of volunteers. You can support us by engaging with the visitors at the ENC, constructing new exhibits, and providing office administrative support. Whether you have just a couple hours or want to spend a couple days every month helping us, we have projects that will fit your interest and skills.

Saturday, April 7th, 10am – 3pm – Nesting Day. Help us unpack the Evergreen Nature Center and get it ready for this new season.

Other Opportunities

Office Administration: We could use some help with filing old copies of the Dipper Newsletter, organizing some of our office spaces, and putting prices on all our gift shop items.

Carpentry: We have three specific needs for people with carpentry skills. These are all exhibit related.

Native Plant Garden at the ENC: Help us with planting and maintaining an area of native plants next to the Evergreen Nature Center.

Volunteer Training Sessions – Training for Visitor Assistants at the ENC who can commit to 20 hours of volunteering during the open season of the nature center (April – October). Returning volunteers are also welcome to attend but it isn't mandatory. If you are unable to attend these sessions but want to volunteer, we can set up one-on-one training with one of our experienced volunteers.
