November 4, 2019

We packed up the Nature Center for the season on September 28th, a bit early this year due to the scheduled bridge replacement work at Evergreen Lake. We had a beautiful start to the morning with elk bugling and lovely weather. More than a dozen volunteers showed up to help pack including one brand new volunteer, Donna!

With everyone's help, the job was finished in 90 minutes, a new Packing Day record! Thank you so much to those of you who came and helped. And an extra special thanks to all the folks who are giving our taxidermy critters a warm and comfortable home for the winter season.

We are already looking forward to the 2020 season, scheduled to start with Nesting Day on a weekend in mid-April, with Opening Weekend in late-April. We are hoping to kick-off the season with an open-house followed by Dawn Chorus the next weekend. Look for confirmation of the dates on our website and in the March and April e-dippers.

Mastering the puzzle of getting the Nature Center into the Storage Room!

Taxidermy animals awaiting transport to their winter digs.
